Sowjanya Senapathi

Full Stack Web Developer

PROFESSIONAL SUMMARY

Experienced full-stack web developer adept in MERN stack with internship experience. Proficient in JavaScript, React.js, Node.js, and MongoDB for building scalable web applications. Strong problem-solving, effective communication, and keen attention to detail for quality deliverables.

PROJECTS

1. Author & Attic | |

HTML5 | CSS3 | JavaScript | JSON API

- Collaborated on a 5-day project with a team of 5 members to develop an Indian e-commerce platform for books and novels.
- Implemented features including filtering, sorting, user authentication, and admin panel.
- Created a user-friendly interface with dark mode option for enhanced user experience.

2. Tax Genius (TaxTim Clone) | |

React | Redux | Redux Thunk | Checkra UI | json server

- Developed an online tax calculator application with login, signup, and chatbot features.
- Worked on the tax calculator and logbook section, focusing on mathematical algorithms.
- Collaborated with a team of 3 members to develop the project in 5 days.

WORK EXPERIENCE

Nolan Edutech Private Limited

SDE-Intern | November 2023 - May 2024

Job responsibilities:

- Developed a face recognition web application using React.js, Tailwind CSS
- Integrated facial recognition technology into the application
- Implemented user authentication and authorization features using React Router and JSON Web Tokens (JWT)
- Utilized state management libraries such as Redux for managing complex application states and data flow
- Ensured responsive design and cross-browser compatibility for seamless user experience across devices
